

Pirate Treasure Fractions

The pirates have just found a new treasure chest. Pirate Jenny found it so she gets more than Pirate Jack.

Split the treasure so that Pirate Jack gets $\frac{1}{3}$ of everything and Pirate Jenny gets the rest.

Pirate Jack's Treasure

Pirate Jenny's Treasure

Challenge: What fraction of the treasure does Pirate Jenny get? _____

If Pirate Jack has 8 diamonds, how many diamonds were in the treasure chest? _____

If Pirate Jenny has 10 emeralds, how many has Pirate Jack got? _____
