

Get yourself a few slices of toast by doing the following things.

- You get some slices of bread and put them under the grill until
- they are brown on both sides if you want the butter to be hot
- then you need to butter it straight away if you don't like soggy toast
- then you have to leave it for a few minutes to cool down else the
- butter will melt when you put it on. Cut the toast into 2 pieces.
- and put onto a plate so you don't drop crumbs all over the place.
- You might like to have jam or marmalade on your toast.
