

Summer Holiday Homework – Year 6

We hope to create an eye-catching display based on our class names (ours is 'Peake' class). Please research your class scientist. We will provide websites for you to use. You can choose how you present your findings, it may be in the form of a piece of written work, a poster or a sculpture.

Over the summer holidays, please try to read a variety of genres (holiday brochure, cook book, magazines, books or blogs), write (postcards, diary entries or a newspaper report based on a fun day in the holidays) as well as practise your times tables on a regular basis, in addition to the research of your class scientist. We look forward to seeing your amazing efforts!

Here are some websites to get you started:

https://www.esa.int/esaKIDSen/SEMD42DR5GG_LifeinSpace_0.html
